Volume Contents

ORIGINAL ARTICLES

Predicted and measured resting energy expenditure in healthy young women
L. Scalfi, A. Coltorti, C. Sapio, G. Di Biase, R. Borrelli and F. Contaldo 1

Nutritional status and performance capacity in internal medical patients
T. Cederholm, C. Jägrén and K. Hellström 8

Subjective assessment of nutritional status-validity and reliability of a modified Detsky index in a Swedish setting
K. Ulander, G. Grahn and B. Jeppsson 15

Trophic effects of different enteral diets in the rat intestine
H. Birke, O. Thorlasius-Ussing, S. Frøkjaer and I. Hessov 20

Inhibitory effect of jejunal high caloric nutrient load on human biliopancreatic secretion. The role of atropine, naloxone and composition of nutrient solutions
P. Sogni, N. Vidou, S. Chaussade and B. Huchet 24

Correction of cellular zinc depletion by oral zinc supplementation in elderly subjects
H. F. Goode, J. R. Naylor and B. E. Walker 29

Low plasma free choline is prevalent in patients receiving long term parenteral nutrition and is associated with hepatic aminotransferase abnormalities
A. L. Buchman, A. Moukarzel, D. J. Jenden, M. Roch, K. Rice and M. E. Ament 33

CASE REPORTS

A severe case of hyperemesis gravidarum necessitating prolonged total parenteral nutrition
J. Webber and J. Field 38

Normal gestation after 5 years on home parenteral nutrition
J. H. Wu, D. X. Huan, W. Zhang and S. G. Wu 43

SYMPOSIUM PROCEEDINGS

Symposium on α-ketoglutarate and analogues: Metabolic and nutritional aspects 47

Alpha-ketoglutarate, ornithine and growth hormone displace glutamine dependent ammoniagenesis and enhance renal base generation and function
T. C. Welbourne 49

Role of the small intestine in glutamine metabolism
D. Darmaun 50

Glutamine metabolism in human adipose tissue in vivo
M. Elia 51

Cellular exchange of glutamine: mechanisms and pathophysiologiçal implications
M. J. Rennie, A. Ahmed, P. M. Taylor, N. M. Willhoft, S. Khogali and L. B. Tadros 53

Metabolic interaction between ornithine and α-ketoglutarate as a basis for the action of ornithine α-ketoglutarate
L. Cynober 54

Kinetics of organ specific metabolism of a bolus injection into the jejunum of glutamine, α-ketoglutarate, ornithine and ornithine – α-ketoglutarate
S. Winkler, Th. Hölzenbein, J. Karner and E. Roth 55

Alanylglutamine kinetics in humans
D. E. Matthews, A. Battezzati and P. Fürst 57

Alpha-ketoglutarate in the treatment of post-operative and critically ill patients
J. Wernerman 58

Positive effects of ornithine α-ketoglutarate in paediatric patients on parenteral nutrition with failure to thrive
A. Moukarzel, O. Goulet, L. Cynober and C. Ricour 59

Ornithine α-ketoglutarate in trauma
M. Jeevanandam 61

Glutamine containing dipeptides: an overview
P. Fürst 62

L-glutamine-enriched parenteral nutrition in catabolic patients
T. R. Ziegler 65

Glutamine, glutamate and pyroglutamate – facts and fantasies
G. Grimble 66

Ornithine α-ketogluterate administration in burn injury
L. Donati, M. Signorini and S. Grappolini 70

Book review 72

ESPEN news 73

ORIGINAL ARTICLES

Nutritional assessment of drug addicts. Relation with HIV infection in early stages
J. L. Gómez – Sirvent, F. J. Santolaria - Fernández, C. E. González – Reimers, J. N. Batista – López, J. A. Jorge – Hernández, F. Rodríguez – Moreno, A. Martínez – Riera and M. T. Hernández – García 75

The effects of infusion of amino acids alone or in combination with glucose and fat on thyroid hormone and other metabolite interactions in surgery
S. N. Georgiannos, A. S. Al-Saadi, A. W. Goode, M. C. Sugden and J. S. Orr 81

The effect of a low fat, low lactose diet on nutritional status during pelvic radiotherapy
A. Bye, T. Ose and S. Kaasa 89

Plasma levels of fat-soluble vitamins A and E in neonates, after administration of two different vitamin solutions
P. Drott, U. Ewald and S. Meurling 96

A prospective study of a new protocol for 'in situ' diagnosis of central venous catheter related bacteraemia
M. Segura, L. Lladó, X. Guirao, M. Piracés, R. Herms, C. Alia and A. Sitges – Serra 103

CASE REPORT

Lactic acidosis in thiamine deficiency
C. Madl, A. Kranz, B. Liebisch, O. Traindl, K. Lenz and W. Druml 108

ESPEN RESEARCH FELLOWS SYMPOSIUM

The role of human growth hormone in post-operative muscle catabolism
F. Hammarqvist 112

Whole body protein parameters in premature infants: A comparison of different ^{15}N tracer substances and different methods
K. D. Wutzke, W. Heine, C. Plath, M. Muller and M. Uhlemann 114

Metabolism of parenterally administered fat emulsions in the rat: Studies of fatty acid oxidation with 1-^{13}C- and 8-^{13}C- labelled triolein
W. Bäurle 116

Intravascular metabolism of a fish oil-supplemented lipid emulsion in an experimental dog model: Effects on plasma and liver lipids, lipoproteins and incorporation of long-chain n3 fatty acids into plasma lipids
C. Rössle 118

Assessment of lipid peroxidation in humans by breath pentane output measurement
A. Van Gossum, J. De Cuyper, H. Ooms, M. Cremer, and K. N. Jeejeebhoy 121

Addendum

A modified enteral formula reduces hospital length of stay in patients in intensive care units
R. H. Bower, P. T. Lavin, J. J. LiCari, G. O. Jensen, D. R. Hoyt, C. T. Van Buren, F. B. Cerra, M. P. Rothkopf, J. O. Daly and B. R. Adelsberg 123

Errata

The uses and limitations of nutritional support
S. P. Allison 124

Correspondence 125

Book reviews 126

Contents of the Journal of Parenteral and Enteral Nutrition 128

REVIEW

Fish oils and the lung
T. Manner, D. P. Katz, B. Skeie, E. Newsholme, O. Kirvelä and J. Askanazi 131

ORIGINAL ARTICLES

Home parenteral nutrition in children: Bioavailability of vitamins in binary mixtures stored for 8 days
M. Ben Hariz, S. De Potter, O. Corriol, O. Goulet, P. Chaumont, D. Forget and C. Ricour 147

Biochemical stability during parenteral nutrition in children
J. W. L. Puntis, S. K. Hall, A. Green, D. E. Smith, P. A. Ball and I. W. Booth 153

Comparative studies on a new concentrated fat emulsion: Intralipid 30% vs. 20%
J. Nordenström and A. Thörne 160

Clinical tolerance and metabolism of a fat emulsion containing carnitine and gamma-linolenic acid
A. Thörne, J. Nordenström, G. Neeser and C. Jarstrand 168

Lipid metabolism by the intestinal mucosa in malnourished subjects following enteral nutrition supplemented with ω3 fatty acids
S. Kowalski, F. Charles, J-L. Nano, S. Fournel, X. Hébuterne and P. Rampal 174

The effect of 4 days methionine sulfoximine administration on net muscle protein breakdown in rats
S. Heeneman and N. E. P. Deutz 182

CASE REPORT

Polymicrobial catheter sepsis in long term central venous catheters
N. Williams, G. L. Carlson and L. Ganguli 191

Book review 193

Notice 194

EDITORIAL

A new Editor-in-Chief 195
S. P. Allison

REVIEW

Nutritional support in acute renal failure
W. Druml 196

ORIGINAL ARTICLES

Home nutrition survey in the UK: the patients perspective
D. M. Carter, C. Wheatley, J. J. Payne-James and A Pick 208

Total parenteral nutrition by peripheral vein–Substitute or supplement to the central venous route? A prospective trial
N. Couse, L. R. Pickford, C. J. Mitchell and J. Macfie 213

Influence of insulin on peripheral uptake of branched chain amino acids in the 60-hour fasted state
L. S. Eriksson and O. Björkman 217

The effect of intermaxillary fixation on leukocyte zinc, serum trace elements and nutritional status of patients undergoing maxillofacial surgery
H. Antila, M. Salo, V. Näntö, K. Forssell, M. Salonen and O. Kirvelä 223

Audit of nutritional advice given to bone marrow transplant patients in the United Kingdom and Eire
A. Bibbington, P. Wilson and M. Jones 230

Comparison of abilities of various interpretations of bioelectrical impedance to predict reference method body composition assessment
N. J. Fuller 236

CASE REPORT

Occlusion of silastic broviac catheters as a result of twisting between the catheter and hub assembly
D. J. Leinhardt, G. L. Carlson and N. Williams 243

Correspondence 246

Notice 247

Contents of current literature 248

ORIGINAL ARTICLES

Thermogenic response to total parenteral nutrition in depleted patients with multiple organ failure
E. Forsberg, M. Soop and A. Thörne 253

Fine bore silicone rubber and polyurethane catheters for the delivery of complete intravenous nutrition via a peripheral vein
N. J. Everitt, M. Madan, D. J. Alexander and M. J. McMahon 261

The content of free amino acids in the human duodenal mucosa
B. Ahlman, C-E. Leijonmarck and J. Wernerman 266

The effect of a fibre free and fibre supplemented polymeric enteral diet on normal human bowel function
S. A. Kapadia, A. H. Raimundo and D. B. A. Silk 272

Calcium and phosphorus retention in the preterm infant during total parenteral nutrition. A comparative randomised study between organic and inorganic phosphate as a source of phosphorus
H. Devlieger, Y. Meyers, L. Willems, F. de Zegher, S. Van Lierde, W. Proesmans and E. Eggermont 277

Standard two-compartment formulation of total parenteral nutrition in the neonatal intensive care unit: A fluid tolerance based system
H. Devlieger, L. De Pourcq, A. Casneuf, Chr. Vanhole, F. de Zegher, J. Jaeken and E. Eggermont 282

Home enteral nutrition in patients with Acquired Immunodeficiency Syndrome
U. Süttmann, O. Selberg, M. J. Müller, A. Schlesinger, M. Gebel, M. P. Manns and H. Deicher 287

Habitual pattern of food intake in patients with liver disease
W. P. H. G. Verboeket-van de Venne, K. R. Westerterp, B. van Hoek and G. R. Swart 293

Fat emulsions for parenteral nutrition II: Characterisation and physical long-term stability of Lipofundin MCT/LCT
R. H. Müller and S. Heinemann 298

Audit of nutritional support provided to surgical patients by a nutrition team
C. E. Plester, K. C. H. Fearon, R. Richardson, P. Rogers, C. Sedgwick, J. McWhirter, H. Reddy and O. J. Garden 310

Correspondence 317

Book review 317

Contents of current literature 318

ORIGINAL ARTICLES

Effect of dietary fish oil supplementation on fever and cytokine production in human volunteers
A. L. Cooper, L. Gibbons, M. A. Horan, R. A. Little and N. J. Rothwell 321

Intravascular metabolism of different fatty acids during lipid infusion in man
V. S. Siderova, Y. A. Carpentier, W. Dahlan and M. Richelle 329

Different $^{13}CO2$ recovery of orally administered [1–^{13}C]- and [18–^{13}C] triolein in postprandial humans: an effect of phosphoenolpyruvate – carboxykinase (EC 4.1.1.32) in peripheral tissues?
C. C. Metges and G. Wolfram 337

The incidence and management of catheter occlusion in patients on home parenteral nutrition
N. M. A. Williams, S. Wales, N. A. Scott and M. H. Irving 344

Lymphocyte and granulocyte function in nutritionally depleted patients. The effect of 2 weeks of total parenteral nutrition
M. Björkholm, S. Bark, L. Backman, C. Jarstrand and G. Holm 350

Selective bowel decontamination, nutritional therapy and bacterial translocation after burn injury
J. De Oca, E. Millat, M. A. Dominguez, A. Aldeano and R. Martin 355

The influence of soyfibre supplemented tube feeding on the occurrence of diarrhoea in postoperative patients
J. Th. C. M. de Kruif and A. Vos 360

CASE REPORTS

Taurolin for the prevention of parenteral nutrition related infection: antimicrobial activity and long-term use
D. A. Johnston, G. Phillips, M. Perry, H. McAlpine, J. Richards and C. R. Pennington 365

Pseudomonas infection of the catheter exit site successfully managed with topical acetic acid
N. M. A. Williams, S. Wales and G. L. Carlson 369
